

What We Do

Dignity Health has partnered with Everside Health to bring an employer-sponsored, patient-centric healthcare service, delivering comprehensive primary and preventative care services via on-site and near-site care centers.

The current healthcare system is broken, with ever-rising costs and decreasing standards in quality of care. The COVID-19 crisis will lead to even higher costs, meaning new care models are going to be more important than ever before. Dignity Health and Everside Health can help address those challenges. We partner with organizations to empower their people with access to high-quality, value-based direct primary care services, while driving cost savings for both organizations and people.

HOW WE DO IT

Partner with Organizations

- Care models tailored to employer needs (clinic locations, hours & services)
- Improve employee (and their families) health + well-being
- Increase employee retention and productivity
- Reduce medical claims spending and total cost of care

Engage Employees

- In-person and virtual care
- Direct, 24/7 access to a doctor
- Personalized care plans
- Broad scope of services for 90% of healthcare needs
- Convenient online tools
- Locations near home/work
- Unlimited time with provider

Empower Providers

- Incentivize based on outcomes, patient satisfaction and engagement (not volume)
- Physician-led care teams
- 70% fewer patients than traditional doctors
- Total care coordination and referral management

Results: Long-term Cost Savings and Better Health Outcomes

COST SAVINGS

Return up to **\$1.85** for each **\$1** invested per year

Lower total healthcare costs by up to **25%**

Save members more than **\$350** on copays annually

Everside Health has been transformational in the way healthcare is provided to our employees and families, and

transformational in the way we can manage our healthcare costs as an employer.”

— Linda Haley, City of Arvada Director of Human Resources
